Culture Suggestions

Work soil at least 18 inches deep; use liberal amount of well decayed manure. Cow manure is best. Use sprinkling of lime and bone; Soak seed in water for about 24 hours or until swelled up and then plant about 1½ to 2 inches deep in a well firmed soil that is good and moist, but not sticky. (DO NOT SOAK WHITE SEEDED VARIETIES).

In recent years a copper oxide preparation has frequently been dusted on sweet pea seeds to prevent damping off, the same proving very satisfactory. This can be procured at most seed stores under various names. Inoculation of seed is also highly successful.

Peas will not do well in too loose a soil. Plant one inch apart and later thin to about six inches. Do not water until seeds have begun to germinate. After germination has taken place give a good soaking. MOST FAILURES ARE CAUSED BY WATERING BEFORE SEED HAS SPROUTED. If weather is hot use some kind of shading. Protect young plants from birds outdoors. Look for Green Aphids regularly as this insect is the worst enemy. Spraying with nicotine, one part nicotine to 400 parts water with spray gun is best. There are also many other good insecticides which are excellent for the control of Aphids. Give young plants substantial supports in order that they may climb and produce good flowers. Poor flowers with crooked stems are worthless. Liquid manure feeding after they come in bloom will lengthen the flowering period and produce better flowers. Pick all flowers as this also lengthens the flowering period. Always keep the surface earth loose and never allow a crust to form. If grown indoors keep ventilators open to keep the air as dry as possible. A house that is kept damp and sultry will cause too much growth and the sweet peas will not bloom as soon as they should, and then will begin to bloom too high up. Early sweet peas usually bloom from 75 to 100 days after seed is planted.

Conditions of Sale

Send your orders as soon as possible after receiving catalog to insure prompt delivery. Orders are filled the same day as received and we exercise the utmost care in filling orders.

Owing to the handling of other flower seed not raised by us we are compelled to use the seedsman disclaimer.

WILLIAM ZVOLANEK & CO., give no warranty, expressed or implied as to description, quality, productiveness or any other matter of any seeds we sell and we will not be in any way responsible for the crop. If purchaser does not accept seed on these terms they are to be returned immediately and the money paid for same will at once be refunded.

Any questions in regard to growing will be cheerfully answered. In case of shortage or crop failure we will take the liberty of substituting with the best and nearest color. If this is not wanted, mark your order "No Substitute."

Terms

A 6% discount will be allowed on all orders with remittance enclosed and all such orders will be sent post-paid to any part of the postal union, or Canada. Orders not accompanied with remittance, postage will be added and if party is not known will be sent C. O. D., unless other arrangements are made in advance. To insure delivery of foreign orders, postal money order should accompany order with postage added or we cannot be held responsible for delivery. ALL FOREIGN ORDERS MUST BE AT PAR WITH U. S. CURRENCY.

If you wish seed to be sent via airmail allow extra for postage, 1 oz. 12 cents; 4 ozs. 28c; 8 ozs. 56 cents; 1 lb \$1.08. This is on account of the extra packing which makes same over-weight.

Why Our Sweet Peas Are Used Everywhere?

Are you going to raise Sweet Peas this season? Of first concern is good seeds that will produce vigorous plants and a good crop of flowers with long stems. Long stems are of great importance in all flower sales. Short stems usually sell as seconds. This is why we are sending this message to you. Our Reddick type is what you are looking for. The type of sweet peas that has nice long stems and with less bud dropping than other types. We now have this type in a good range of colors and each season are producing other colors. These have been developed as the ideal florist type for cut flowers. Vigorous plants, fine colors with well placed flowers on very long stems. It is with pleasure that we note repeat orders year after year. Many have not missed since 1926, the year we were established.

If you have not grown this type, we suggest that you give them a trial and we are sure you will agree they are tops. About 6 to 10 colors is about all the average grower needs. Pink, Lavender, White, Orange, Salmon Pink have a steady sale and should be the principal colors used. Blue, Red, Cream, Etc., have less sale and should be used in less amounts.

We suggest as the ten leading colors:

Zvol. Mrs. H. S. Reddick,	Zvol. Cascade,
Zvol. Miss Rose Reddick	Zvol. Highlight,
Zvol. Rapture,	Zvol. Super Blue,
Zvol. Long Stem Pink,	Zvol. Navy Blue,
Zvol. Golden Dawn,	Zvol. Flash,

Again we are printing a few unsolicited letters from growers as reference as to why our sweet peas are being used everywhere for top results.

William Zvolanek & Co. Lompoc, Cal.

Gentlemen:

I was so pleased with my flowers from your seeds. I had flowers for Xmas and such lovely ones.

MRS. N. P. Bay City, Texas

William Zvolanek & Co. Lompoc, Cal.

Dear Sirs:

Your seeds are unequalled for length of stem and lasting quality of flowers. Sincerely

MRS. R. J. S. New Orleans, La.

William Zvolanek & Co. Lompoc, Cal.

Dear Sirs:

We are placing this order of spring flower seeds with you in confidence after seeing our first real crop of Christmas sweet peas in eight years of steady effort to achieve that kind of result. Many are coming with four flowers, and the color range is exceptional.

Florally yours, S. FLORIST CO., Tuscola, Ill.

William Zvolanek & Co. Lompoc, Cal.

Dear Sirs:

We have never had such grand sweet peas. We used all your seeds this time and it sure is a sight to see them. We have a 300 foot row along side of a lath house and this is the first year we ever had a wide space to grow. Used your Cascade. Many Thanks,

Y. NURSERY & FLORIST, Elsinore, Cal.

William Zvolanek & Co. Lompoc, Cal.

Dear Sirs:

With your exceptionally fine seed I have had the finest sweet peas and larkspur I have ever raised. Thank you for your prompt service and consideration.

Sincerely, M. S. La Grand, Cal.

You too can get results with Zvolanek grown seeds. Seeds that are fresh from harvest.

Zvolanek Seeds That Give Results.

We thank you for your past orders and trust this new list will not be overlooked by any growers who have in mind to grow sweet peas this coming season.

Sincerely yours, WM. ZVOLANEK & CO.

William Zvolanek

P. S. If not growing any items we list, it would be a favor to us to pass our list to your grower neighbor who may be interested.

WILLIAM ZVOLANEK'S CALIFORNIA BUTTERFLY SWEET PEA

— — — oOo — — —

While these sweet peas are not as large as the Spencers they are a distinctly new type. They grow as tall as the Spencers, but foliage is somewhat heavier. Flowers measure as much as two inches across when well grown, with stems 14 to 16 inches long. Three to four flowers on a stem as a rule. Fragrance is much more pronounced than that of the Spencers. While not the best for commercial purposes, no collection is complete without this new distinct type, mixed colors.

PRICE ON EACH OZ. \$1.00

Order directly from us; seed is sent out the same day order is received. Do not accept seed not in our original packages as William Zvolanek & Co., seeds.
